Profile Summary

Second-year AI&DS student with strong interest in programming and web development. Skilled in C and basic web technologies, with experience working on projects like Student-performance-analysis and web-based applications.

Professional Skill

- C programming
 - Basic java
- Html,Css, and basic JS
 - Basic problem solving
- Pandas Library
 - Numpy Library
- Quick Learning Ability
 - Good communication

Education

- Vignan’s Institute Of Information Technology

2024-2028

Artificial Intelligence and Data Science | Current Average CGPA : 9.1
- Sri Chaitanya Junior College

2022-2024

MPC| SSC Marks : 965/1000
- Sri Gayatri Vidya Nilayam

2022

SSC Marks : 575/600

Projects

Student Performance Analysis

- Analyzed student academic data to understand performance patterns and trends.
- Used Python libraries such as NumPy, Pandas, and Matplotlib for data processing, analysis, and visualization.

Mini Web Game (HTML, CSS, JavaScript)

- Developed a simple interactive web-based game with multiple pages.
- Implemented a start page and navigation between pages using HTML, CSS, and JavaScript.

Participations

- **Hackathon Participant – Anil Neerukonda Institute of Technology and Sciences (ANITS)**
Participated in a hackathon focused on developing solutions for disaster management

Certifications

- Programming in C – NPTEL
- Introduction to Data Science – NPTEL
- C Programming Certification – Cisco
