Professional Summary

Second-year B.Tech student in Artificial Intelligence and Data Science with interest in AI-driven applications and innovative technology solutions. Currently exploring projects involving intelligent systems and creative AI ideas.

Education

Vignan's Institute of Information Technology

2024 – 2028

Bachelor of Technology in Artificial Intelligence and Data Science

CGPA: 9.46/10

Relevant Coursework

- Artificial Intelligence
- Data Structures
- Python Programming
- Machine Learning Fundamentals
- Database Management System

Projects

SkillBridge AI – AI-Based Career Trend Recommendation System

- Developed an AI-based platform that analyzes users' current domains and maps them with emerging industry trends and future opportunities.
- Focused on identifying high-growth career domains with long-term scope through trend-based analysis and intelligent recommendations.
- Contributed to research, feature ideation, and workflow planning for career guidance and future-oriented decision making.

DreamAI – Future Career Vision Generator (Ongoing)

- Developing an AI-based system that generates a personalized video of the user's future career journey, including their own image and realistic milestones to motivate them.
- Creates a roadmap showing skills and steps required to achieve the career, with a progress tracker to help users stay on track.
- Provides guidance based on the user's skills and interests to suggest suitable career paths and actionable steps, combining career visualization, motivation, and AI-based planning.

Technical Skills

- **Programming Languages:** Python, Java, C
- **Frameworks / Libraries:** NumPy, Pandas, Matplotlib
- **Databases:** MySQL
- **Tools & Platforms:** Jupyter Notebook, VS Code, GitHub
- **Web Development:** HTML, CSS
- **Concepts:** Machine Learning, Artificial Intelligence, Data Structures,

Achievements / Activities

- Secured a position among the Top 4 students in the branch during 1st and 3rd semesters.
- Participated in a college-level hackathon and collaborated with a team to develop innovative technology-based solutions.

Interests

Artificial Intelligence, Machine Learning, Creative Problem Solving, Exploring Emerging Technologies
